- Broadcast Equipment & Repair
- Streaming video Systems & Services
- Video, Audiovisual, & Network installation
- Technology, Answers, Assistance

Communtek Video Systems sells and services broadcast video equipment, installs, upgrades, and troubleshoots television and audiovisual systems, and is a technology resource for the latest solutions including SDI, 24p, and streaming video. For over 16 years, CVS has been the preferred sales and service center to the TV and video production community. CVS provides insider pricing to broadcast professionals on the major brands of TV equipment, and a huge selection of lesser known problem solvers that have passed our engineering approval.

CVS is a leader in video streaming technology, enabling Internet video that looks better and costs less. Ask about superior hosting, encoding, live webcasting, pay-per-view, video networking, and media asset management systems.

CVS repairs and aligns broadcast equipment, at reasonable rates, and with short turn-around (depending on availability of parts). We maintain a complete library of service manuals, extensive inventory of extender boards, alignment tools, alignment tapes, and test gear. For a list of equipment we regularly service, visit:

www.communtekvideo.com/Service.htm
