DIGITAL BROADCAST 2/3"

12 x 5.3 AIF.HR : A NEW RANGE OF AIF LENSES WITH HIGH RESOLUTION

- Lenses produced to meet the highest standards of digital cameras for ENG-EFP applications coming from Angenieux's know-how and expertise in the design and manufacturing of film lenses, optics which have made the standard of excellence in Hollywood.
- New glass and advanced Electron Beam coatings increasing the resolution and reducing dramatically flare and ghostings which enhance contrast and give perfect colour accuracy.
- The world's first Wide Super Zoom of the industry which combines the widest angle F5.3mm (79°) and the longest zoom range 12x. Available in 2/3" with 16/9 capabilities, the new Angenieux 12 x 5.3 AIF has a focal range of 5.3-64 mm, reaching 128 mm with the range extender, and features a fast f/1.7 aperture.
- New materials and shape improve protections of essential functions: return, momentary switch, AIF and VTR.
- A rectangular sunshade minimizes light interferences and is compatible with 16/9 formats. It is delivered with an integrated UV filter easily removable and standard 105 mm diameter pitch 1 mm. Front diameter : 92 mm for matteboxes.
- Grip with perfect finish with an ideal angle for comfort and moisture absorbent protein paint for longevity. The black paint and genuine strap in natural colour give it its high class touch.
- Double engravings on the focus ring make it easy to use and clear for the shooting operator, together with a lowered range extender.
- Assisted Internal Focus (AIF) technology, first introduced by Angenieux, is giving instant, fluid zoom control and precision focusing capabilities.
